

Cladding for DMD Plug and Work

Diode laser cladding machine DLC-2.3F

Your technology entry in laser cladding for direct metal deposition

We deliver your customized compact turn-key equipment "plug and work"

- fiber couple high power diode laser with 2.3 kW output power
- powder nozzle Koax8 with powder feeder and exhaust
- CAD / CAM- solution
- robot for 3D-movement of the laser beam with turn-tilting-axis for handling
- laser safety cabin
